

Soldier on Dr Tedros, We Stand with You.

15th April 2020

We the undersigned networks and organizations, appreciate and support the leadership of Dr. Tedros Adhanom Ghebreyesus in his capacity as the World Health Organization Director General. Dr Tedros has been a champion of putting people first in getting needed healthcare services and responses. His professionalism and compassion shines through.

Dr Tedros is at the helm of affairs at a time when the world has desperately needed his courageous leadership of WHO and competencies in addressing COVID-19, a global pandemic that has brought our world as we know it on its knees in various ramifications.

It is unfortunate that in the middle of this pandemic the astute leader is being vilified and threatened.

We support him to deliver on the leadership that would bring the world out of this pandemic. Now more than ever, the world needs to unite in supporting Dr. Tedros and WHO.

No doubt, in the end there will be lessons for everyone. For now, we must not lose sight of the task ahead- stopping the virus and saving lives.
