

WACI Health, established in 1997, is an Africa regional advocacy organization committed to galvanizing sufficient political will to end life-threatening epidemics and transform health for all in Africa.

Vision

Health for All in Africa

Mission

We advocate for the end of life threatening epidemics and seek to improve health outcomes for all in Africa by influencing political priorities through effective, evidence-driven, civil society voice and action.

These 3 core strategies define our approach

1 Policy Analysis and Advocacy

2 Civil Society Capacity Strengthening for Advocacy

3 Civil Society Mobilization and Engagement

We work to achieve these strategic objectives:

- 1** Increased resources for health
- 2** Policies that improve health and achieve equity in health
- 3** Accountability on health governance and delivery

Thematic advocacy areas of priority

- 1 HIV and Tuberculosis
- 2 Reproductive, Maternal, Newborn, Child and Adolescent Health
- 3 Health R&D and Innovation
- 4 Health Systems Strengthening /Universal Health Coverage

We Collaborate through Platforms/Partnerships

Civil Society Platform on Health in Africa (CiSPHA)

Global Fund Advocates Network (GFAN) Africa

HIV Prevention Research Advocacy Network

Coalition on Health Research and Development (CHReaD)

ACTION Global Health Advocacy Partnership

Global Financing Facility (GFF) CSO Coordinating Group
